An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's Attorney Thomas M. Croft (Reg. No. 44,051) on August 24, 2008.

AMENDMENTS TO THE CLAIMS

Listing of the Claims:

Claims 2, 3, and 8-13 have been cancelled.

Claim 1 has been amended as follow:

1. (Currently Amended) A network device management system comprising:
a storage facility to store at least one configuration knowledge instance and at least one configuration data instance for each of a plurality of network devices, wherein each of the plurality of network devices is configured to have multiple versioned instances of configuration knowledge and configuration data, each versioned instance of configuration data being created at a different point in time, wherein the instances of configuration knowledge describe physical and logical capabilities of the plurality of network devices and the instances of configuration data describe the physical and logical capabilities utilized by the plurality of network devices,

wherein each versioned instance of configuration knowledge comprises at least one configuration knowledge schemata defining one or more capabilities of a network device; and
an assembler in communication with the storage facility, the assembler being capable of accessing the configuration knowledge instances and configuration data instances and assembling a device configuration from a selected one or more configuration knowledge instances and one or more configuration data instances; and

ALLOW SUBJECT MATTER

1. This office action is in response to the amendment filed on June 4, 2008 and was interviewed on August 25, 2008.
2. Applicant amended claim 1, cancelled claims 2, 3, and 8-13.
3. Claims 1, and 4-7 (currently renumbered as claims 1-5) are allowable over the prior art of record.
4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks in the Amendment filed on June 4, 2008 with respect to the claim limitations and further with the examiner's amendment point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
